**CONTENT:** 50 CAPSULES (31G)

## WELLNESS FOR THE BODY

Many individuals believe diet alone contributes to digestive health and well-being. However, there are other external factors that can negatively affect digestive health. Stress and erratic sleep patterns, for example, can contribute to digestive irregularity.

Today, there are more than 25 different medical concerns related to the digestive system. Most digestive health concerns, such as bloating, constipation, and diarrhoea, are temporary and can be symptoms of stress, frequent travel, or poor diet.

However, there are longer-lasting conditions such as Irritable Bowel Syndrome (IBS), a medical term given to a collection of otherwise unexplained symptoms relating to a disturbance of the large bowel. At some point in their lives, about a third of the population will be affected by symptoms of IBS and one in ten people will seek advice from a doctor.

Aloe vera has been used for centuries to support physical well-being. Aloe vera is one of the most astonishing plants that mother nature has to offer with a remarkable spectrum of more than 270 nutrients.

Unicity Aloe Vera is gently processed to maintain the valuable nutrients naturally contained in the aloe vera plant, such as vitamins, minerals, and essential amino acids.

Supplement your nutrition with Aloe Vera and discover the benefits of this power plant for yourself!

## RECOMMENDED USE:

Aloe Vera: Take 1 capsule with your evening meal from day 1 to day 10, and 2 capsules daily from day 11 to day 30.
